A complete online solution for monitoring teaching and learning, tracking performance management, evaluating the impact of CPD and managing your school development plan.

Already trusted by hundreds of schools across England and Wales

Lessons Learned is suite of tools designed to support school leaders and their staff in ensuring effective school improvement.

Our goal is to open up school processes, making them more intelligent and efficient through the use of purpose-built technology.

### Learning Walk

### We ♥ Groups!

Our Group View feature provides MAT and cluster leads with an overview of data for their schools.

Individual schools can use a common approach or continue using their own unique forms and processes - either way Lessons Learned is smart enough to amalgamate the data.

### Key Benefits for Schools

- Ongoing record of progress for individual staff and the school as a whole.
- Puts individual staff in charge of their own development.
- Free use of the Lessons Learned frameworks for lesson observation, learning walks, book scrutiny, TA observation and more.
- Free updates to the modules you already own, which are constantly evolving thanks to customer feedback.
- Access to a friendly, UK based support team via phone and email, plus a library of online support documents.
- Private and secure - all data is stored on UK based servers.
- Accessible from anywhere, any time, so long as you're connected to the internet.

# The Five Modules of Lessons Learned

## Teaching and Learning Development Module

Record and analyse lesson observations, learning walks, book scrutinies and much more, using your own frameworks or the ones we offer for free with the system. Each form type used for monitoring can be customised to meet your school's requirements.

Our dashboard screens analyse your data in real time, providing visually engaging charts and tables that allow you to easily track progress across the school, as well as for each department and individual.

## Staff Appraisal and Development Module

Efficiently manage the entire appraisal process for every individual in your school (teaching and non-teaching staff) and ensure you have all the information you need for performance-related pay.

Using Lessons Learned, staff can track their own progress towards achieving targets and real time graphs and tables give senior leaders up-to-date information on which objectives have been met and which need to be actioned.

## School Development Module

Break out of the habit of using Word to create your SEF and SDP documents and use our purpose-built online form builder instead.

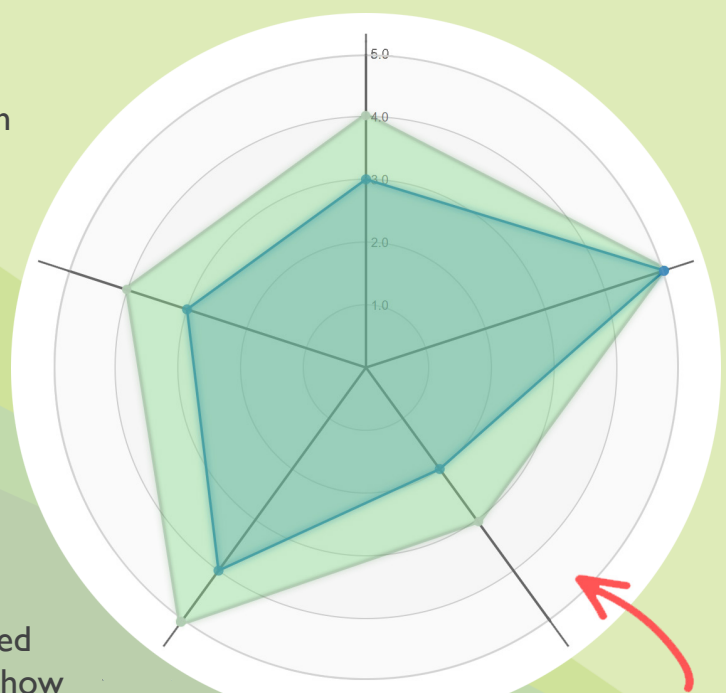

Documents can be created at both school and year group/subject level, with smart 'widgets' that allow you to judge yourself against key areas, record your priorities, assign responsibilities to staff, total up resources required and more.

## 360 Analysis Module

Gather evidence on your areas of focus from everyone in school, underatking reviews of self, peer, subject, year or school. Create your own radar (spider) charts using custom spokes, scales and prompts, ask your staff to complete them and then layer these to track progress over time and make comparisons.

## Continuing Professional Development Module

Track the CPD events attended and requested in your school and run reports that tell you how effective your professional learning is, what it's costing you and how well attended it is.

*Create reviews using radar charts with our 360 Analysis Module*

## Support and Training

Good customer service is our top priority, which is why we offer all of our customers unlimited telephone and email support as well as free online training sessions as and when they're needed.

Our support team is UK based, easy to get through to (you'll never be forced to listen to dodgy hold music) and always happy to listen to feedback and suggestions.

We also offer in-school training at half and full day rates.

## Pricing

	1 Module (+CPD)	2 Modules (+CPD)	3 Modules (+CPD)	4 Modules (+CPD)
Primary				
1 Year	£595/year	£795/year	£845/year	£895/year
3 Years	£495/year	£695/year	£745/year	£795/year
Secondary				
1 Year	£695/year	£895/year	£945/year	£995/year
3 Years	£595/year	£795/year	£845/year	£895/year

Prices are exclusive of VAT. First year set up fee applies (between £200 - £350, depending on school phase and modules taken). Our CPD module is always included for free. Discounts are available for groups of schools (formal or informal) that purchase together.

## Book an Online Demo Today

To book your free, no obligations demo simply contact our support team using any of the details below. Online demos can be done for one person or a small group and are arranged at a time to suit you.
